

ARIZONA ARTESIAN DISTRICT BEING DEVELOPED

San Simon Valley Promises to Produce as Much Artesian Water as Does Artesian District of This State.

San Simon, Ariz., Nov. 13.—From present indications the San Simon country of Arizona will be fully as great an artesian district as the Artesian section of New Mexico in Eddy county. Several wells are down and all are flowing freely, with the prospect of more wells in the immediate future.

A flow estimated at 200 gallons per minute is the result at the artesian well of the Globe Water and Irrigation Co., two miles northwest of San Simon, after perforating the casing. The water is soft and pure, and has a temperature around 85 degrees F., which is ideal for irrigation purposes. The company, which is composed of prominent Globe men, including E. F. Towle, president of the Globe chamber of commerce, Sam L. Gibson, president of the Globe Copper Co., and others, is well pleased with the result, and has let a contract for the drilling of three more deep wells.

This is the largest flow of the four artesian wells in the San Simon valley in this vicinity and means much for the future of the valley. Larger flows, however, are hoped for and confidently expected, for the reason that bedrock has not yet been reached in any of the wells, all of the flows being in sand. Gushers are therefore not impossible on sinking wells to a sufficient depth.

Will Try Farming.
The Globe company will engage in farming next spring, filling the soil on an experimental farm of about 200 acres. Everything will be tried out, with a view of ascertaining what crop will do best on the soil and with the water on hand. No doubt particular attention will be paid to alfalfa and fruit, however, as these crops bid fair to excel all others here, according to present indications.

Preparatory to this farming, the company will build a suitable reservoir of large capacity, remove the land, lay out ditches, etc. The farming will be under the management of A. T. Hamons, manager of the Old Dominion hotel of Globe, who is an experienced Denmark farmer.

And this is but the beginning of the Globe company's plans with respect to the San Simon valley. Already having results so sufficient flow of good water on rich soil—the company is satisfied; further than that the company is composed of men with means, who know that they are profit ahead, will spare no means or influence to accomplish profitable farming results. They make no secret of the fact that it is their intention to engage in farming and land speculation on a large scale. A little later on—when the time is ripe—the company will probably turnish a bank here, in case none is forthcoming in the meantime, for the furtherance of their plans and the benefit of San Simon and the valley.

Another artesian well, the fourth, was brought in at San Simon this week by I. S. Hodge on his land one mile and one half west of town, close to the S. P. railroad right of way. Until the tools are removed and the well is cleaned out it is impossible to estimate the flow, but it is certain to gush forth water. The well is about 750 feet deep. It is a 1-2 hole, reduced from a start at the top of 3 inches, and the well is cased only a portion of the way.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural, and indicates that there is something wrong with the individual and that Nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. It is everything in fight with Nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wey's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

Get a bottle today, and let it do for you what it has done for thousands of others. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by all druggists.

This is an event that every housewife in Albuquerque looks forward to with the keenest interest, because our Quality Linens are worthy of the finest table in the land; and you may choose from the most extensive grades or from those at moderate cost, with the assurance that your selection is from the "best quality for price" obtainable.

There are cloths for all size tables and napkins to match. Among our new importations are some handsome pattern cloths in designs that are veritable works of art, and in such wide variety that a handsome cloth can be had in prices varying from \$4.95 to \$15.00 with napkins to match.

We have lot numbered our Damask by the yard for easy selection as follows:

- LOT 1 AT 49c, OUR 65c NUMBERS
- LOT 2 AT 65c, OUR 75c NUMBERS
- LOT 3 AT 75c, OUR 90c NUMBERS
- LOT 4 AT 80c, OUR \$1.00 NUMBERS
- LOT 5 AT 98c, OUR \$1.15 NUMBERS
- LOT 6 AT \$1.10, OUR \$1.25 NUMBERS
- LOT 7 AT \$1.25, OUR \$1.50 NUMBERS
- LOT 8 AT \$1.45, OUR \$1.75 NUMBERS
- LOT 9 AT \$1.65, OUR \$2.00 NUMBERS

Mercedized cloths in 8 and 10 quarters \$1.25 for 75c. 8-4 German linen cloths, \$1.50 value, for \$1.25. 10-4 German Linen Cloths, \$1.75 value for \$1.45.

8 and 10 quarter Linen Cloth with napkins to match \$5.50 value for \$4.25 the set.

8-4 Damask Cloth in our \$2.50 value for \$2.00. 10-4 Damask Cloth in our \$3.25 value for \$2.75. Napkins in above cloths are priced as follows:

24 INCHES, WERE \$3.75, ON SALE AT \$3.25 DOZ.
22 INCHES, WERE \$3.25, ON SALE AT \$2.95 DOZ.

German Linen Napkins, unbleached, dice pattern, our \$1.50 value, very special at \$1.00 the dozen.

Toweling

Unbleached Crash Toweling, our 10c quality for 6c a yard. 15c bleached crash, all linen at 12 1/2c. Liberal reductions on all our figured and plain huck toweling, which we carry in 16 1/2, 18, 22 and 24 inch.

Towels

At 85c a dozen, an extra good cotton huck towel that would be splendid value at \$1.00.

At \$1.25 a dozen, an exceptionally heavy cotton huck towel, 20x40 inches, and is a towel we regularly sell for \$1.50 the dozen.

At 19c each, an extra heavy weight, large size all linen huck towel, our regular price is 25c each.

Embroidery Linen

At 39c a yard, 36-inch, all pure linen, meadow bleach, suitable for embroidery purposes, worth 50c.

This linen event anticipates your every need for both Thanksgiving and Christmas and the linens offered at these price inducements are all of standard quality.

FERGUSON & COLLISTER

PHOENIX NOW HAS WIRELESS

Messages Handled from Arizona City in Up-to-Date Manner; Messengers Call for and Deliver Aerograms.

Phoenix, Ariz., Nov. 13.—The wireless station here, which has been under construction for several weeks, is now complete and has been formally opened.

Phoenix is now connected by wireless with San Francisco, Sacramento, Stockton, Los Angeles, San Diego, El Paso and Kansas City. Within a short time work will commence upon stations at Seattle and Chicago while another at Portland, Oregon, is practically complete now.

Commercial Agent Edgar I. Jensen of the Federal Telegraph company arrived in the city yesterday and with his arrival the formal opening of the local station took place. For some time it has been practically complete and one or two trial messages were sent, but before today the service had not been formally inaugurated and the company was not ready to handle commercial business. Mr. Jensen will remain in the city several days, interviewing local business men, acquainting them with the excellence of the service given by his company and handing out rate cards. He says that all he has to do to get business is to let people know what the service is. Every preparation has been made to take care of the business here. An office has been opened in the lobby of the Adams hotel and a messenger service inaugurated. Boys will deliver and collect messages in all parts of the city.

CLARENCE POWELL HEADS MINSTREL SHOW

Clarence Powell, the dean of Erhiton performers, still heads the minstrel show with Richards & Pringle's Famous Minstrels, a position he has held for years.

Powell stands in a class by himself among colored performers, to look at him is to laugh. Weighing nearly three hundred pounds, possessed of

the smile that won't come off, when he opens his cavernous mouth the audience is "with him." Unlike most colored performers, he "knows when to stop." He never tires his audience, but always leaves them clamoring for more.

Powell is not the whole show, for he is ably assisted in the fun making by such well known comedians as Tom White, Dave Smith, Bobbie Sparrow, Arthur Wright and Alonso Williams.

The vaudeville portion of the program comprises seven numbers of sterling worth and merit. All in all, it may be safely conceded that Richards & Pringle will deliver the best minstrel performance that will be seen upon the local stage this season.

Simpsons Challenge Band of solo musicians is still with the organization, and will give a street parade at noon, and a concert in front of the theater at 7:30 in the evening. Don't forget the date, Saturday, Nov. 18.

THE MOUNTAIN GOAT AS A MENACE TO MINING

A Chicago paper publishes with grave credulity the following item from its Alaska correspondent. According to that individual the mountain goat seems to be a menace to the natural resources in timber in Alaska. Says the Record-Herald:

Mountain goats are causing mischief in Mineral Gulch, Alaska, considerably. During stormy weather they crowd into the tunnels that are being driven on the claims well up on the mountains, and it is only by throwing a dynamite cartridge into the tunnels in the morning that they can be driven out and the contractors get in to go to work.

It is also stated that they are likely to be the cause of considerable litigation among mine owners next year, as they have destroyed a number of location stakes by eating them.

Owing to the fact that alder and willow comprise the only wood in the gulch, nearly all the location stakes are of those woods, which, in the absence of other food, the goats attack eagerly.

A great many of the animals have been killed by the men at work in the gulch, but the number seems to increase rather than diminish. Chicago Record-Herald.

For pains in the side or chest take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is the best remedy for these ailments and will be found in every household.

TOO ILL TO MOVE, POSTOFFICE MAN MAKES CAPTURE

Deductions Made While Inspector Is in Bed, Swathed With Bandages, Lead to Arrest of Criminals.

Lying in bed, his head swathed with bandages and many bottles of medicine placed in conspicuous spots about the room, Charles G. Kinzel, a postoffice inspector, last month began a search which yesterday ended in the formal arrest of what is believed to be the smoothest gang of postal crooks any yeagman ever captured in the southwest, says the El Paso Herald.

Several hundred dollars worth of postage stamps have been located near this city, as have nine very valuable diamonds and a tonnet can full of old gold. Yesterday the men were taken from the city jail and marched to the postoffice where they were placed before United States Commissioner George B. Oliver. Harry Burk, alias Walter P. Clark, immediately waived his preliminary examination before the commissioner and entered a plea of guilty to the charge of having in his possession "postage stamps and books of postage stamps belonging to the United States government." He was then bound over to await the action of the federal grand jury held here last night at 10 o'clock. The grand jury will sit tomorrow for a preliminary examination before the United States commissioner.

James A. Tapp, James Ellis, Harry Miller and Albert Whiffen refused to testify in a grand jury hearing and refused to make any statement in regard to the crime with which they are charged. In default of \$2,000 bonds these men were also sent to the county jail, from which they will be taken tomorrow for a preliminary examination before the United States commissioner.

While the men are yet charged with robbery, Kinzel declared last night that he was in possession of

what he believes to be conclusive evidence that the gang obtained the stamps by robbery. He also said that they will later be charged with this crime as soon as he has finished gathering and compiling the evidence.

All of the prisoners have been in El Paso for several weeks, drifting here one at a time from various parts of the United States. The men came here just prior and after the Klingling Brothers' circus showed here last month. During the last two weeks Inspector Kinzel assisted by the police and detectives of El Paso, has been on the trail of the men.

Kinzel came to El Paso to attend the federal court and at the end of the term became too ill to leave the city. Following an operation the sick man received a tip from the detective that a stranger was in town attempting to dispose of postage stamps at a price far beneath their real value.

RICHARDS AND PRINGLES INTRODUCE INNOVATION

Florida Scene Representing the Alcazar to Open the Show on Saturday.

Richards & Pringle's Famous Georgia Minstrels, which come to the Elmer theater on November 18, offer a decided innovation this year in a beautiful first part called "Evening" in which the audience really becomes a part of the performance. The scene is the ballroom and grounds of the beautiful Hotel Alcazar in St. Augustine, Florida. The rise of the curtain reveals the company assembled upon the ball and lawn at the hotel, dressed in white and light blue of the Spanish beauty, entering the scene who are supposed to be the audience seated upon the lawn.

Sweet strains of music, of that kind so peculiar to the negro race, float over the auditorium, the curtain being raised and the scene of the hotel, dressed in white and light blue of the Spanish beauty, entering the scene who are supposed to be the audience seated upon the lawn.

There will be a big parade and concert at noon, and a second concert in front of the theater at 7:30 o'clock in the evening.

W. B. McMill, Democratic candidate for attorney general in the last election, is in the city for a brief visit.

ROSWELL CROPS ARE BIGGER THAN EVER

Production of Apples and Alfalfa in Pecos Valley Will Exceed Heavy Yields of Former Years.

That the Pecos valley is surpassing its reputation as an apple center is shown by the figures which have been compiled by a Roswell paper. Alfalfa is also being produced in record quantities.

The shipping season is drawing to a close in Roswell and only a small per cent of the season's exports is yet to be sent out. Pecos valley resources are Roswell resources, of course, but the figures on the entire valley can not be secured at this time. The shipments in carload lots from Roswell station alone are almost complete and show a world of wealth in this community alone. Below is given a table of the carload shipments that were billed the past season from Roswell station. They include the apples packed at the Roswell and South Spring sheds, but do not contain the fruit and products billed at the many stations south of Roswell.

Car lot table: Apples, 234; peaches, 21; pears, 31; cantaloupes, 21; watermelons, 8; hay, 481; alfalfa, 132; muck, a total of 1,057 cars.

The fruit and vegetable trade, a total of 443 cars and the alfalfa and hay total 481 cars. Roughly estimating the hay and alfalfa at 1500 per car the total reaches \$243,000.

And these shipments represent what has been billed from the Roswell and South Spring sheds. The alfalfa shipped is valued at \$1.00 per ton, some of the hay brought as high as \$1.50 per car. The peaches and pears brought as high as \$1.000 per car and higher. Alfalfa haul is worth more than \$100. And there are still several carloads of apples and cantaloupes yet to be shipped.

I am pleased to recommend Chamberlain's Colic Remedy as the best thing I know of and would remedy my cough, cold, and bronchial trouble, writes Mrs. L. H. Arnold of Denver, Colo. "We have used it repeatedly and it has never failed to give relief. For sale by all druggists."

Big Pay in Civil Service

The pay is good, the work congenial, and promotion rapid in the U. S. Civil Service. If you are an American man or woman over 18 you are eligible for any government position. To learn how you can qualify in your spare time, write for our free Civil Service booklet. M. Clifford Monaghan, representative of International Correspondence Schools, Box 142, Albuquerque, N. M.

TIRES & TUBES

Diamond Goodyear & Goodrich

In regular and odd sizes. A full line of Supplies and Parts. Expert mechanics do all the repairing at 75c per hour. Call on us for Tires, Tubes, and Supplies and Parts and bring in your car for all repairs.
